

Videography

In order to capture the "beyond" moments of the pre-wedding scenes, we offer a drone and handheld cameras for unique movie session in high-quality video.

The drone videography emphasises the aerial aesthetic beauty of the photo shooting location at 4k video quality. The footage will be suitable for projection on large screens.

Movie Plan A

No editing. The video will be delivered as a 2-4 minute file.

¥66,000

Movie Plan B

We will edit the filmed footage, adding captions, music, effects, and more to create a polished video.

¥143,000

Movie Plan C

We will ensure sufficient time and staff for video shooting to create a high-quality video production. Please let us know your specific requests for this plan (estimate required for detailed requests).

¥275,000 -

Drone photography only

This plan is for drone photography only, without using a handheld camera. Both photos and videos will be taken using a drone. The video will be delivered as a single video file that will be linked together.

¥33,000

All prices include tax
